- 497 **Pure endoscopic lateral orbitotomy approach – intra- and extradural limitations. Anatomic study**
T. Spiriev (Bulgaria), L. Laleva, V. Nakov, A. Prats-Galino, M. de Notaris
- 498 **Tailoring reconstruction techniques in endoscopic transsphenoidal surgery. A novel algorithm**
A.M. Sicignano (Italy), G. Giourgos, E. Costi, A. Bizzoni, G. Dorelli, M. Chimenti, G. Danesi, C. Bernucci
- 533 **Clinical use of S100 B protein serum measurement in traumatic brain injury**
R. Skarica (Croatia), H. Krpina, L. Bakovic, R. Karlo, I. Franciskovic, B. Splavski
- 499 **The role of soft tissue dissection and temporalis muscle positioning in orbitozygomatic approaches: a quantitative cadaveric study**
G. Beggio (France), M. Labidi, S. Hanakita, K. Watanabe, S. Froelich
- 575 **Occult discoligamentous lesions of the subaxial c-spine on MRI imaging in elderly trauma patients with degenerative cervical spondylosis – a case series of 5 patients**
I. Janssen (Germany), A. Rienmüller, J. Kirschke, J. Gempt, B. Meyer, Y.-M. Ryang
- 500 **The orbitozygomatic approach: a systematic review of anatomical quantitative studies**
G. Beggio (France), M. Labidi, S. Hanakita, K. Watanabe, S. Froelich
- 576 **Traumatic occipito-cervical dislocation without neurological deficit and cardio-respiratory symptoms**
P. Anania (Italy), P.F. Sbaffi, G. Zona
- 534 **Traumatic brain injury and myogenic dysfunction of cerebral arteries**
N. Szarka (Hungary), M. Pabbidi, K. Amrein, E. Czeiter, K. Pohoczky, Z. Helyes, Z. Ungvari, A. Koller, A. Buki, P. Toth
- 501 **Additive manufacturing in neurosurgery**
N. Gabrovsky (Bulgaria), M. Laleva, N. Velinov, J. Sofronov, G. Todorov, S. Gabrovsky
- 502 **A single center experience on surgical treatment of chronic subdural hematoma: a classification and regression tree approach of neurological outcome**
A. Rovlias (Greece), A. Blionas, S. Melissaris, D. Papoutsakis, N. Paidakakos, M. Siakavella
- 535 **3D printing for making Titanium composite implants in reconstructive neurosurgery**
A. Kravchuk (Russian Federation), V. Komlev, S. Barinov, V. Okhlopkov, V. Mamonov, A. Fedotov, Y. Latyshev, A. Maryakhin
- 503 **Improvement of cognitive functions in patients with acquired defects of the skull in the early postoperative period after cranioplasty**
E. Sinbukhova (Russian Federation), A. Kravchuk, A. Lubnin, G. Danilov
- 577 **Surgical decision-making in traumatic cervical spine injuries: a single centre experience**
C. Atabey (Turkey), R. Özay, S. Hanalioglu, S. Ozbal Gunes, B. Yaman, A. Gunaydin, M.E. Turkoglu, M. Sorar, M. Kalan, B.R. Ergun
- 504 **The effect of pre-operative skin preparation and post-operative superficial closure on post-cranioplasty infection rates**
C. Parfitt (United Kingdom), E. Dyson
